

Outstanding management
and communications
solutions to help schools
achieve more.

Powered by ClarionCall

A suite of powerful, innovative and flexible applications, designed specifically for schools, which work individually or together to provide a complete turnkey management and communications solution.

Unify brings together all those aspects of school life not typically covered by your MIS. It can help you consolidate calendars, arrange sports schedules, organise parents' evenings, coordinate activities and more, with everything managed through a single, easy-to-use dashboard.

At the heart of the system are the Staff and Parents' Message Centres, for public announcements and private information sharing. To expand functionality, you simply select the additional applications you need.

Unify is highly secure, simple to set up and easy to master, and because it's web-based, it's accessible from anywhere, on any device. Each application works in combination with your existing ClarionCall service to eliminate repetitive operational tasks and enhance communication with parents, freeing valuable time and resources to invest in achievement.

A woman in a dark jacket is sitting at a desk in an office, looking at a computer monitor. The background shows office shelves with binders.

STAFF MESSAGE CENTRE

A single management hub for all applications and communication services; simple to create, publish and share critical information with parents and colleagues.

- Instant school-wide notification to announce or update events.
- Consolidated calendar, automatically updated or integrated with your existing school diary.
- Simple to view centralised data; easy to export for reports, audits and analysis.

A person is holding a smartphone, looking at the screen. The image has a warm, yellowish tint.

PARENTS' MESSAGE CENTRE

A comprehensive communication portal with everything parents need to know easily accessible in one place, including private login for personal information.

- Personalised archive of all recent school communications.
- Latest news and announcements – a snapshot of important upcoming events.
- Access to schedules, sports fixtures, activity programmes and online booking.

Create the ideal solution for your school by **CHOOSING THE APPLICATIONS** that match your priorities.

SPORTZONE

The complete communications solution for sports departments; makes managing fixtures and schedules effortless, and keeps parents in the loop.

- Coordinate fixtures for multiple sports and teams with a simple step-by-step checklist.
- Produce team sheets, manage availability, record results and store or export for analysis.
- Share everything parents need to know, including late changes, by email, text or in the Message Centre.

PARENTS' EVENINGZONE

Make sure the evening runs like clockwork with online booking, administration and management, giving parents more flexibility, and staff more control.

- Publish meeting times and availability, create custom schedules, and avoid clashes.
- Parents book appointments online, confirmed by email with a personal itinerary.
- Staff can view booking information, timetables and attendance updates in a click.

WEBFORMZONE

A secure platform for digital data collection that makes it simple for staff to create, publish and share online forms, and quick and easy for parents to respond.

- Create and publish custom forms in minutes with a simple drag-and-drop form builder.
- Email a direct link to parents, dramatically improving response rates.
- Results automatically collated and ready to export for review.

CO-CURRICULARZONE

A more efficient way to run clubs and activity programmes online, helping parents discover exactly what's on offer and staff to manage demand.

- Publish programmes, specifying activity details, dates, times, venues and availability.
- Simple online booking, with integrated waiting lists to view status and control numbers.
- Keep all participants up to date with group communications.

REPORTZONE

Save time and money by archiving, publishing and sharing personal reports and reviews, originally produced in your MIS, swiftly and securely online.

- Complements your current systems; staff simply select any existing documents and upload.
- Stored securely in the password-protected private area of the Parents' Message Centre.
- Invite parents to download, or send out reports direct by email.

MEETINGZONE

A more efficient approach to managing reviews, tutor meetings and other one-to-one appointments, making it easy to co-ordinate schedules for staff and parents.

- Create and publish a custom appointments diary across multiple dates.
- Parents view availability, select and book online, appointments confirmed by email.
- Export a full timetable for planning and personal reference.

EVENTZONE

An easy-to-use application to help staff plan and manage events efficiently, combining calendar, invitation and booking features with facilities requirements.

- Publish and announce custom events, instantly updating the central calendar.
- Combine with Unify applications to manage email communication, attendance and co-ordinate facilities.
- Approvals hierarchy to avoid venue or availability clashes.

DIARYZONE

Build a complete record of pupils' non-timetabled events and activities by child, capturing valuable data, supporting roll call and complementing your current MIS.

- Integrates with other Unify applications to create individual pupil profiles, records and schedules.
- Add personal notes to inform reports or share information with colleagues.
- Collate and analyse data at school level to reveal participation rates and other useful statistics.

Access from anywhere, at any time, on any device.

Intelligently designed to be viewed on any computer, tablet or smartphone.

WHY CHOOSE UNIFY?

- Keep parents informed, engaged and involved in the school community.
- Streamline processes to create more time and resource for teaching priorities.
- Modular approach offers greater flexibility with affordable, predictable pricing.
- Consistent, professional branded delivery for your school across all communications.
- Fully integrated with your existing MIS; complements existing investment.
- Quick to set up, simple to learn and easy to use for staff and parents.
- Proven, secure and resilient, based on the latest cloud-based technology.
- A tailored solution, designed exclusively for schools.

ClarionCall: The UK's Leading Provider of Group Communication Solutions for Independent Schools
