# DIARYZONE

Build a complete picture of every pupil's sporting, events and co-curricular commitments by aggregating information collected across the Unify applications suite. **DIARYZONE** automatically collates key data to create a centralised record of each pupil's non-timetabled activities diary. Staff can use the service for digital roll call, administrators can see where everyone is at any time, and the school can quickly identify statistical insights for high-level reporting and analysis.

**DIARYZONE** works in combination with your existing ClarionCall and MIS solutions to provide a richer, more accessible view of pupils' out-of-timetable itineraries throughout the school day.
